The accompanying financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention, on the basis of a going concern basis, while revenue, expenses, assets and Liabilities accounted/recognized on accrual basis. Accounting policies are consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Management evaluates all recently issued or revised accounting standards on an ongoing basis.

2 Use of Estimates

The preparation of financial statements in conformity with GAAP requires Management to make estimates and assumptions that effect the reported balances of assets and liabilities and disclosures relating to contingent assets and liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Examples of such estimates include provisions for doubtful debts, future obligations under retirement benefit plans, income taxes, post-sales customer support and the useful lives of fixed assets and intangible assets.

3 Revenue recognition

Revenue from fixed price construction/infrastructure contracts is recognized by reference to the work certified as completed by the contractee.

Deferred income taxes reflect the impact if current year timing differences between taxable income and accounting income for the year and the relevant of timing difference of earlier years. Deferred tax asset and liabilities are measured at the tax rates that are expected to apply to the period when the asset / liability is realized, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.
